

Did you know that there are now fewer wild lions in the world than rhinoceros? One of our key projects in Kenya is to help save the lions,

Please support the Hatters Explorer Scout Unit as we look to support vital work to preserve wildlife in Kenya, improve the livelihoods of communities in Maasai Conservancy areas and deliver a once in a life time opportunity for 55 young people.

Please help our fantastic young people to get themselves there and to make a difference.

We will be staying in Maasai Conservancy areas, volunteering with the local community, scientists and conservationists.

We're getting stuck into a range of projects, all with a focus on wildlife, education, and easing tensions between humans and animals.

**The Hatters ESU**

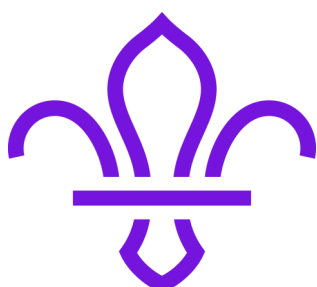

## Voluntary Activities:

- ♦ Setting camera traps in the bush to record movements of lions.
- ♦ Supporting education programmes to protect rare birds.
- ♦ Painting eyes on the backside of cattle (yes, really, for good reason).
- ♦ Collecting evidence for scientists protecting the wildlife and interests of the Maasai community.

Southgate District Scout Council (303656) is raising funds for the Hatters Explorer Scout Unit's Kenya Expedition. The objective is to raise sufficient funds to send our members on this once in a lifetime adventure.

Everyone has an individual fundraising target and will be allocated funds from what is raised for Southgate District Scout Council – Hatters Explorer Scout Unit.
